Afternoon after shooting, she was working in Kennedy News Room in the Ambassador, next to kitchen. One man glued to the TV set and talking to the TV, excited and mumbling every time he saw Kennedy. She asked around and nobody knew him. Got a uniformed older hotel security who ushered the guy out. Subject was probably MidEast extraction, late 20's or early 30's, husky broad shouldered with ill fitting, dark suit with deep maroon tones and orange cast. Broad face, swarthy complexion, dark eyes, 5-9. Would know him if saw him again. May tie in with Larry Becks statement of co-hort of Sirhans.
